*Dear Lorraine*

I am writing to congratulate you, your staff, the governors and the pupils themselves at Whitley Academy on your recent exam success.

The relationship between yourselves and the other schools in the Family is an excellent example of the way that the purpose of the Family of Academies is being brought to life, demonstrating how schools working together can support and learn from one another.

We are at a very exciting moment in the development of the Family; over the next few months I am looking forward to the schools finding opportunities to bring staff and pupils together in ways that inspire and encourage them and strengthen the identity of the RSA Family.

I very much look forward to continuing to work with you and your school (and coming back to Whitley early next year) and once again – congratulations!

Yours sincerely

Matthew Taylor
